

Hello Steam Era Modeler:

We are pleased to announce that Westerfield Models is releasing our KIT Series: 3000, USRA Steel Automobile Car, Now with a One-Piece Body Casting.

The 3000 Kit Series models Michigan Central and New York Central USRA Steel Automobile box cars. The MC cars, built in 1922-23 as lots 440-B (#96000-97999), 464-B (#98000-99499) and 465-B (#95000-95499), operated as Automobile cars until 1933. 1000 of the cars were then rebuilt as single door box cars by sealing the smaller auto door and renumbered #84000-84999. Later, in 1943, these cars were renumbered into the NYC #189300-190999 series.

Westerfield Models had a recent release, our #4260 Series NAR (Northern Alberta Railway) Fowler Stock Car, reviewed by Model Railroad News in the March, 2017 issue of MRN. Please see pages 60-64 for a great review of these Kits by Steve Lucas. MRN has promised to add a link to their review. We will post the link on our website main page when they do.

Westerfield Kits include new HO scale unpainted urethane castings, and are complete with quality details, detailed instruction/history sheets and proprietary decals covering all versions of the prototype car. Trucks and couplers are not included but are available separately. Please see below.

We are also pleased to announce that TAHOE MODEL WORKS Trucks and Kadee Trucks and Couplers are now available through Westerfield Models. Tahoe Trucks are now listed on our Website Secure

Model Store under "Tahoe Model Works Trucks". All fifteen of the Tahoe Truck types are available with any of three wheelset types: Frame only, RP-25 Wheelsets, Semi-Scale Wheelsets. We also have a "Tahoe Trucks Listing" page on our Main website page that provides information on each type of truck and, in some cases a user list for that truck. Kadee Trucks and Couplers are available on our Website Secure Model Store under "Add-On Trucks and Couplers for Kits". Please note that Kadee products are only available with the purchase of a Kit, while Tahoe Trucks are available separately.
